

Ranch House with Character on Private Setting

This ranch has been taken care of from top to bottom. New Carpet throughout, freshly painted interior and exterior, a new furnace, and all new kitchen appliances just scratch the surface of this one of a kind home. This 1600+ square foot ranch is located on almost 1/2 an acre, that includes a very private backyard surrounded by beautiful evergreen trees that provide privacy all year round. This house includes characteristics you don't see in other homes in this price range, such as a brick floored four season room, and a walk-in master bathroom off the master suite.
